

innovative, high-quality, aftermarket rotatable part specialists

Capability Statement

BROADWING AVIATION
intelligent aftermarket solutions

Core Competencies

Who We Are: Broadwing is a Small Business that serves Commercial Aerospace Companies and Government Defense Contractors globally. We are a boutique aerospace company that provides superior service, customer support, response time, and quality while at the same time delivering a product at a competitive price to our end user.

What We Do: Broadwing is a supplier of rotatable, consumable and expendable airframe material for the following platforms; Advanced Composite Aircraft, B52, C130, C137, C-5, LM-100J, DC-10, E3, E6, KC10, T6, T44, C8, C9, C21, C32, C40, C90, F15, F16, F22, 737 / Max, P8, 757, 767, 777, 787, 747, MD88, A319, A320, A321, A330, A340, A380, VC25, G2, CRJ's and rotary wing H12, H13, XH15, H1, UH1, CH46, HH60, UH72. We fill the "gap" for buyers created by OEM production issues, unacceptable lead times from manufacturers, parts shortages, and distributor failures. We resolve your inventory problems.

How We Do It: Broadwing uses experience, technology, buying patterns and software models to deliver the best material options available in the world to the customer quickly, accurately and clearly.

Current Customers: DLA, DynCorp, AAR, L-3 Communications, Raytheon, DynCorp, Lockheed, S & K Aerospace, Pinnacle Solutions, American Airlines, United Airlines, Southwest Airlines, Alaska Airlines, Allegiant Airlines, West Jet Airlines, UPS, SkyWest, Atlas Airlines, Air Canada and others.
